Air Traffic Flow Management and Performance dashboard legend

Total Ground Delay. Flight delays experienced when waiting (on the ground) for a GDP-assigned departure slot as result of predicted congestion at the arrival airport. Airlines may optimise GDP slots to minimise delays. Not included is ground delay for GA and Military.

Ground Delay (Airservices-attributed). Proportion of ground delay due to Airservices reduced service delivery. This includes Airservices staffing impact and technical issues of Airservices operational equipment.

Ground Delay. Total ground delay experienced by flights departing to this airport. Total ground delay includes factors outside of Airservices control, which include inclement weather and reduced airport usability.

Arrivals. Total arrivals at this airport during the day of the report

Total Movements. Total movements at this airport during the day of the report. Movements include arrival and departing aircraft.

GDP Hours. Total hours where the number of scheduled flights exceeded the predicted available capacity at this airport. This triggers a GDP to be put in place to ensure an orderly flow of flights into this airport. A GDP typically starts one hour ahead of a congested period and concludes one or two hours after.

Cancellations (arrivals). Number of flights scheduled to arrive at this airport determined to have been cancelled within 24 hours of departure.

Cancellations (Other). Number of scheduled flight cancellations outside of Airservices control, which include inclement weather, aircraft technical issues, and other airline decisions.

Cancellations (Airservices-attributed). Number of scheduled flight cancellations attributable to Airservices reduced service delivery.

GDP Compliance. Proportion of flights into this airport that departed compliant with their assigned GDP slot. Ensuring a flight depart compliant with its assigned GDP slot is the responsibility of the airline operating the flight.

GDP – Ground Delay Program
KSA – Kingsford Smith Airport
